Magnus Tannerfeldt, Director
magnus@sseess.kva.se

Our mission

To increase Sweden's involvement in international research programmes, thereby improving Swedish and international Global Environmental Change (GEC) research

OBJECTIVE 1

to increase the participation of Swedish researchers in international research programmes

OBJECTIVE 2

to increase the flow of information on GEC research programmes to national decision-makers and researchers

OBJECTIVE 3

to improve the coordination among research funders in order to improve the use of GEC research

What we do:

Linking international research programmes ↔ Swedish research

Seminars, membership, meetings/dialogue, website, nominations as experts etc.

Grant opportunities

- *SSEESS Gateway*
- *SSEESS Research Links Programme*
- *North-South Travel Grant*

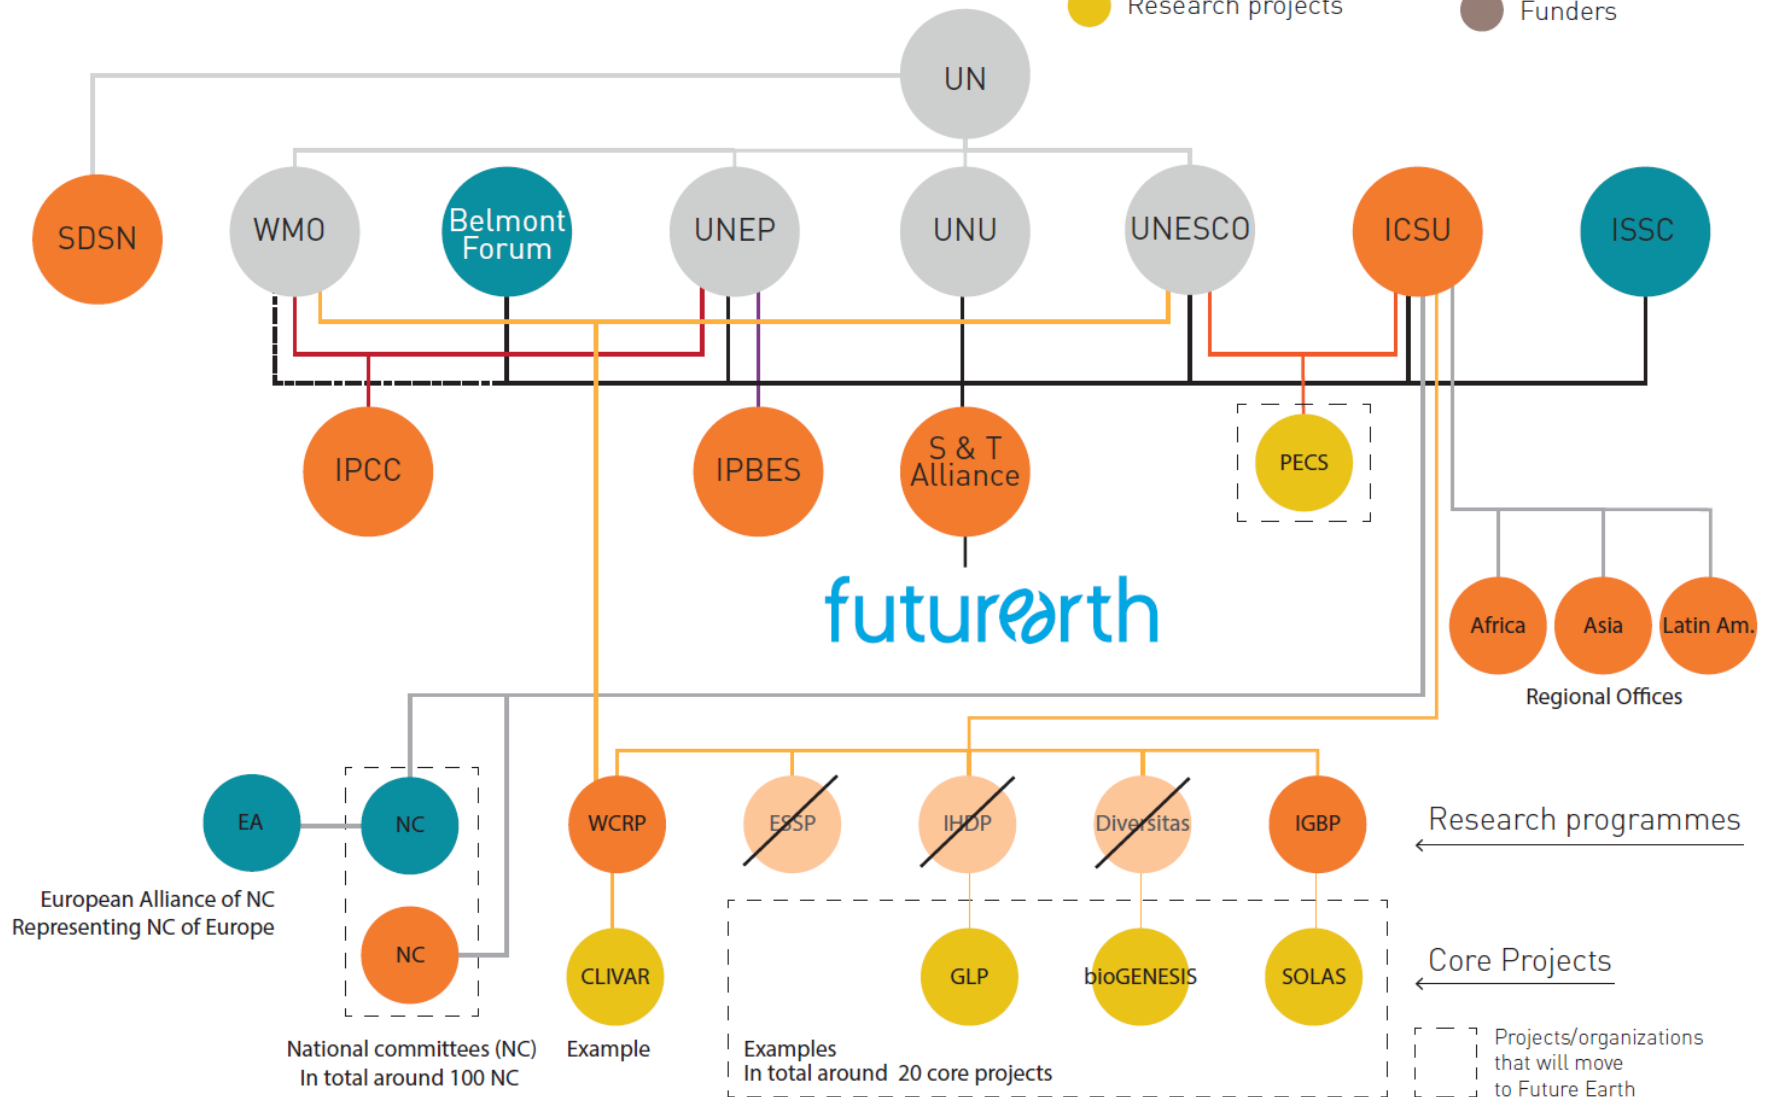

Thematic workshops

Players on the international research arena relevant for SSEES

- Research organizations / programmes / networks
- Other organisations
- Research projects
- Funders

European Alliance of NC
Representing NC of Europe

National committees (NC)
In total around 100 NC

Example

Examples
In total around 20 core projects

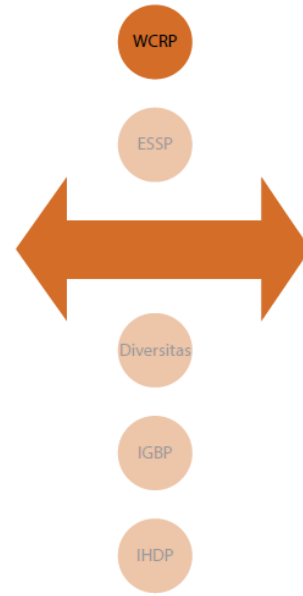

Projects/organizations
that will move
to Future Earth

Researchers
International / Swedish
